Scorching summer heat sometimes proves fatal. Guidelines are given below, should be followed.

- Keep the children indoors during the hot hours and do not let them out to heat.
- Provide enough liquid food and water mixed with salt and sugar to the children and insist them to use cotton dresses, cap and umbrella while going out.
- Discourage the children from frequent use of chilled water, ice-cream and cold drinks.

Few more tips :-

- ❖ It is still not late to improve handwriting. Practise it.
- ❖ If the children are being taken out on a trip, guide them to collect as much information as possible regarding the place, the people, their way of living and prepare a travel account.
- ❖ Watching T.V must be minimized to educative and informative programmes.
- ❖ Encourage the children to start a special study habit which will help them in future.
- ❖ Teach them not to waste food, water, electricity etc.
- ❖ Allow the children to help you in small house hold works.
- ❖ Help the child to visit the places of other members of the family and plan to stay few days with them.
- ❖ Encourage your child to raise a kitchen garden by planting seeds.
- ❖ Share stories about your childhood and about your family history.
